Subject: draft desk statement on EPA proposal to approve Colo. ozone SIP

Doug, Martin, Andrew - I wanted to share the desk statement and related draft comms materials related to our upcoming proposed approval of the state's SIP for 2008 ozone standard. I will be refining these slightly over next day or two, welcome any comments or edits.

I worked with Monica and her team on these and will share the statement and Qs and As with CDPHE. With regard to media interest, I expect we will use this material as a starting point for any responses to calls that may come in. As this is a proposed action subject to public comment, our general strategy is to establish some basic messaging in the desk statement and defer to the comment period and language associated with the proposed action itself.
